Tailored Solutions

Expertly Delivered

One of the things we've learned over the years is that most homeowners underestimate what their garage can become. In fact, one of the comments we hear most often once a project is complete is, "I never realised my garage could look like this."

With thoughtful design and the right finishes, an underused garage can become a premium extension of the home that supports the way you live, work and relax.

However, you want to upgrade your garage, we have three core services to suit your needs: our Full-Service Design & Installation Package which includes Home Gyms, a Floor-Only Service, and a dedicated Golf Studio Package.

Whichever you choose, you'll benefit from our expert care, attention to detail, and over 20 years of design experience.
